

Configurar outlook 365 com IMAP

Para configurar o outlook siga os passos abaixo

1º - Abra o Outlook

2º Clique em adicionar conta

3º Agora escolha a opção IMAP

A screenshot of the 'IMAP Account Settings' configuration page. At the top, it shows the email address 'admin@dreamhostexample.com' and a '(Not you?)' link. The 'Incoming mail' section includes a 'Server' field with 'imap.dreamhost.com', a 'Port' field with '993', and an 'Encryption method' dropdown set to 'SSL/TLS'. There is a checked checkbox for 'Require logon using Secure Password Authentication (SPA)'. The 'Outgoing mail' section includes a 'Server' field with 'smtp.dreamhost.com', a 'Port' field with '465', and an 'Encryption method' dropdown set to 'SSL/TLS'. A checked checkbox for 'Require logon using Secure Password Authentication (SPA)' is also present and highlighted with a dashed border.
